## A Message To Our Readers

As we near the end of this year, we want to take a moment to express our deepest gratitude for your unwavering support. Whether you've been part of our community through volunteering, sponsoring, or simply spreading the word about our mission, your contributions have made a profound impact on our work in community service, education, mental health, and wellness. It's because of you that we've been able to bring our initiatives to life and make meaningful strides toward a healthier, more connected community.

But the journey doesn't end here. As we look toward the future, we're excited about the potential for growth and the difference we can continue to make together. We encourage you to keep spreading the word about LIM, inviting others to join our efforts, and helping us build on the momentum we've created this year.

Together, we can continue to foster positive change and ensure that our programs reach even more people in need. Thank you for being part of our mission.

## HBCU-LEEA

The Historically Black Colleges & Universities Law Enforcement Executives & Administrators Association (HBCU-LEEA), Inc. is a nonprofit 501c3 national organization of police chiefs, executives, and security directors that advance campus public safety for its students attending the 105 HBCU educational institutions nationally. LIM will be supporting this organization and its efforts to shape public safety policies and initiatives.

As a former police officer, this program is near and dear to LIVE CEO and our founder, Crystal Fleming. Through this program she hopes to motivate college students to join law enforcement and become leaders in the next generation of officers, dedicated to safeguarding their communities and promoting justice with fairness and compassion.

## PROGRAM MEMBER TESTIMONIAL: NO TURNING BACK

What started as a simple challenge to win a free vacation became a life-changing journey for Danielle McClary, Lead Recruiter at partnering company, TJFACT.

After placing second in the LIM/TJFACT wellness challenge, Danielle found herself motivated by more than just prizes. The wellness journey she began through LIM's program became about feeling better, both physically and mentally.

Launched in January, LIM's wellness program initially offered personal training three times a week. Since then, it has expanded to include training, nutritional guides, and fun, friendly challenges that keep participants engaged and motivated. For Danielle, the impact has been beyond anything she could imagine. Not only has she lost over 50 pounds, but she's also transformed her lifestyle—working out regularly and making lasting changes to her diet.
